We are happy to announce that we had a constructive and fruitful kick-off meeting of the EDU-LAB project (Horizon project “European Youth in Education and in Transition to the Labour Market”) which was organised by the EDU-LAB coordinator ECONOMICA from 6 to 7 February 2025 in beautiful Vienna.

We are very much looking forward to three years of interesting and comprehensive analysis, empirically and theoretically, of navigations, pathways, and transitions in education and training (E&T) and from E&T to the labour market of young people aged 15-30 years.

Here is a photo of the group who met in Vienna at Federation of Austrian Industries
