The aim of the online training course is to enable higher education teachers to enrich their online teaching skills. The training course will provide educators with knowledge and practice tips to transform a selected study unit into a digitally enhanced collaborative learning experience.

The training course is offered as part of the Erasmus+-funded project Enhancing Educators' Digital Competencies (EDUdig). Course participants are welcomed from the partner institutions in **Portugal, Austria, Finland, and Germany.**

Participants can join the whole course or select topics of their interest. A participation certificate is granted for those finishing the whole training course.

The training course is composed of synchronous online sessions and independent learning. The topics with learning goals and time zone adjusted sessions are listed in the following table.
